February 12, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup>, and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on February 3, 2014, NASDAQ OMX BX, Inc. (“BX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing several changes to its fees for certain orders that execute at the New York Stock Exchange (“NYSE”). Additionally, the Exchange is proposing to modify the tier regarding credit for entering order [sic] that accesses liquidity in the BX Equities System.

Currently, the Exchange charges members for BSTG (includes BSKN orders since it is a form of BSTG), BSCN (includes BSKP orders since it is a form of BSCN) and BTFY orders that execute at NYSE \$0.0025 per share executed. The Exchange is proposing to increase the charge assessed for all such orders executed at NYSE to \$0.0030 per share.

Also currently, the Exchange charges members for BMOP orders that execute at NYSE \$0.0027 per share executed. The Exchange is proposing to increase the charge assessed for such orders executed at NYSE to \$0.0035 per share.

The Exchange is also proposing to modify a tier with respect to the rebates it pays for orders that access liquidity in securities priced at \$1 or more. Currently, a member will receive a credit of \$0.0013 per share executed when accessing liquidity<sup>3</sup> if the member (i) has a daily average volume of liquidity accessed in all securities during the month of 6 million or more

---

<sup>3</sup> As with other rebate tiers, the tier does not apply to an order that executes against a midpoint pegged order, because the accessing order receives price improvement.

shares through one or more of its BX Equities System market participant identifiers (“MPIDs”), and (ii) adds and/or removes liquidity of 40,000 or more contracts per day during the month through BX Options. The Exchange proposes to reduce the 40,000 or more contracts per day to 30,000 or more contracts per day.

The tier recognizes the prevalence of trading in which members simultaneously trade different asset classes within the same strategy. Because cash equities and options markets are linked, with liquidity and trading patterns on one market affecting those on the other, the Exchange believes that a pricing incentive that encourages market participant activity in BX Options will also support price discovery and liquidity provision in the BX Equities System.

## 2. Statutory Basis

BX believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>4</sup> in general, and Sections 6(b)(4) and (b)(5) of the Act,<sup>5</sup> in particular, because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system that the Exchange operates or controls, and it does not unfairly discriminate between customers, issuers, brokers or dealers.

The change with respect to the tier for members active in both the BX Equities System and BX Options is reasonable because it reflects the availability of a price reduction for members that support liquidity on both markets. The change is consistent with an equitable allocation of fees because the pricing tier requires significant levels of liquidity provision, which benefits all market participants, and because activity in BX Options also supports price discovery and liquidity provision in the BX Equities System due to the increasing propensity of market participants to be active in both markets and the influence of each market on the pricing of

securities in the other. Moreover, making one of the provisions of the tier easier to qualify for by reducing from 40,000 or more to 30,000 or more contracts per day during the month through BX options, has the potential to reduce fees for a wider range of market participants by introducing a new means of qualifying for a lower fee for providing liquidity. The change is not unreasonably discriminatory because market participants may qualify for a still lower fee without participating in BX Options through participation in BX's Qualified Liquidity Provider program.

The proposed change to fees for certain orders that execute at NYSE are reasonable because they reflect a modest increase to such fees. Specifically, the proposed change is reasonable because it reflects a modest increase of \$0.0005 per share, from \$0.0025 per share to \$0.0030 per share, in the charge assessed to members executing at NYSE of BSTG, BSCN and BTFY orders. The proposed change is also reasonable because it reflects a modest increase of \$0.0008 per share, from \$0.0027 per share to \$0.0035 per share, in the charge assessed to members executing at NYSE of BMOP orders. In addition, the change is equitable and not unfairly discriminatory because it affects similarly situated members in the same way.

These fee changes are consistent with an equitable allocation of fees and not unfairly discriminatory because the increase will maintain the same fee being assessed to members executing at NYSE for BSTG, BSCN and BTFY orders. The fee increase for members executing at NYSE for BMOP orders is an equitable allocation of fees and not unfairly discriminatory because BMOP<sup>6</sup> is a premium routing option and the fee increase is modest.

B. Self-Regulatory Organization's Statement on Burden on Competition

---

<sup>6</sup> BX Rule 4758(a)(1)(A)(iii) defines BMOP as a routing option under which orders route only to protected quotations and only for displayed size. If shares remain unexecuted after routing, they are posted to the book. Once on the book, should the order subsequently be locked or crossed by another market center, the system will not route the order to the locking or crossing market center.

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.<sup>7</sup> BX notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, BX must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, BX believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. In this instance, the increases with respect to certain orders coupled with the easier to qualify for pricing tier for members active in the Exchange's cash equities and options markets enhances the Exchange's competitiveness by reducing fees for some and raising fees modestly for others. Thus, although price increases, one of the proposed rule changes provides incentives for behavior that may allow members to reduce their trading costs. Moreover, because there are numerous competitive alternatives to the use of the Exchange, it is likely that BX will lose market share as a result of the changes if they are unattractive to market participants. Accordingly, BX does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.
